Notes
ASB GetWise is a facilitated programme to assist New Zealand Primary and Intermediate schools to deliver financial literacy concepts to their students in an impactful, engaging, and memorable way.
Banqer is a financial education platform that provides a hands-on environment for students to get curious, creative, and ultimately, confident with money
This workbook brings together everything students in Year 9 and 10 need to know about money: understand how income, budgets, savings, debt and interest work, and learn how to manage your money safely.
MoneyTime is a self-taught online learning experience for New Zealand students in years 6-8. Students complete financial lessons on-line at their own pace.
Links to help students find information on what assistance is available to them on leaving school, e.g. work, financial assistance, housing, services.
Overview of financial capability resources including the progressions of learning, resources and school stories
This tool is designed to support teachers and school leaders to teach financial capability.
Ideas, stories, templates, and lesson plans developed by a school cluster.
Collection of unit resources for intermediate, year 7/8 students
Collection of unit resources for junior secondary students
Collection of unit resources for senior secondary students
This 2014 report explores the financial literacy of secondary students, and its place within secondary schools.
Information and lesson plans for ECE - Year 12 Games and calculators

Learn about monetary policy, the New Zealand financial system and Open Bank Resolution with these simple graphics and videos.
The Reserve Bank has developed useful resources which may assist teachers and students with their courses and studies.
The Reserve Bank's educational videos are a collection of useful resources to explain important financial concepts.
These activities enable students to develop their conceptual understanding about what tax is.
These activities enable students to develop their conceptual understandings about what tax is spent on.
Exploring values and perspectives: What are the different points of view in our community about what tax should be spent on?
Rich questions that would support deep understanding in relation to tax.
These activities enable students to develop their understandings about key concepts related to taxation.
How have governments in different times and places made decisions about taxation?
Exploring values and perspectives: What are different points of view about tax?
How are young people taxed? What are young people's responsibilities regarding tax?
Based on the social inquiry model suggesting rich questions that would support deep understanding in relation to the achievement objective.
New website, being trialled and evaluated in Term 4 2018, to gather together resources for Financial Capability.
The assessment rubric can be downloaded, and learning outcomes highlighted and, or hyperlinked to evidence.

<p>This resource analyses the effects of advertising on financial behaviours and identity. Explores the way financial messages are conveyed through static images, and analyses spending, saving and money management behaviours.</p>
<p>The assessment rubric can be downloaded, and learning outcomes highlighted and, or hyperlinked to evidence.</p>
<p>This resource encourages students to apply maths skills and knowledge in a financial context. Students explore their financial identity and behaviours when managing their money, spending, saving and taking on debt.</p>
<p>The assessment rubric can be downloaded, and learning outcomes highlighted and, or hyperlinked to evidence.</p>
<p>Invite community input to explore a range of values and perspectives, consider responses and decisions, and explore what financial identity means for individuals and their communities.</p>
<p>The assessment rubric can be downloaded, and learning outcomes highlighted and, or hyperlinked to evidence.</p>
<p>This resource explores personal money habits and individual financial identities, and uses digital technologies to design a tool to educate others, or track a financial capability journey.</p>
<p>These teaching tools demonstrate how to build a financially healthy life.</p>
<p>Thinklinkers are thinking tools that support the learning and teaching resources of financial capability.</p>
<p>The programme's learning resources support the vision and values of the National Curriculum.</p>
<p>There are three future briefs written as blog entries over a three-day time frame. These are designed to be used as a problem-solving, group learning experience. Teachers can choose to use one future brief as a one-off lesson or use all the briefs to further develop students' problem-solving skills.</p>
<p>Introductory activities to financial capability - an hour or so?</p>
<p>This schedule allows students to track learning from week to week, and can be adopted to suit timetables and the school programme.</p>
<p>This resource makes suggestions about how teachers can make financial capability relevant to their students.</p>
<p>With a diverse range of resources; including free lesson plans, educational games for classroom use and profiles of inspiring educators; Practical Money Skills hopes to empower educators, enable student learning, and help provide people of all ages with the tools necessary for financial success.</p>
<p>Managing money workshops tailored for high school students.</p>
<p>Board game (downloadable) designed for ages 12 and up to explain fundamental financial concepts and help develop financial capability skills and knowledge.</p>
